

# Saida Taj M R

Senior Frontend Developer | Portfolio | saidataj.mr@gmail.com | +91 9513648279

## EXPERIENCE

### FINASTRA | SENIOR UI DEVELOPER

Dec 2021 – Present | Bengaluru, India

- Communicated with product managers and UX designers to translate project requirements and business objectives into polished user interfaces.
- Conducted thorough code reviews for all pull requests, using a checklist of common code quality issues and static analysis tools like SonarQube to identify and fix bugs.
- Analytical problem solver with a proven ability to communicate complex ideas clearly and concisely.
- Experienced in providing constructive feedback, motivating, and coaching developers to enhance both technical expertise and soft skills.
- Improved and expanded project platforms using React.js to develop rich User Interfaces.
- Experienced in mentoring other Software Engineers, finding it personally rewarding to impart knowledge and support their professional development.
- Proficient in problem-solving using recognized best practices and principles such as TDD/BDD, SOLID, and design patterns.
- Worked in an Agile team, using Azure DevOps for task tracking and actively participated in daily sync-up calls for team alignment.

### COGNIZANT | SOFTWARE DEVELOPER

Aug 2020 – Nov 2021 | Bengaluru, India

- Known for fostering positive working relationships with colleagues due to my clear and effective communication skills.
- Proficient in working with component libraries and adept at understanding the specific requirements associated with their implementation.
- Streamlined development (20% faster) and boosted customer satisfaction (15% increase) through a new agile process.
- Proficient communicator with a proven ability to deliver clear and concise messages in both written and verbal English.
- I'm skilled at updating build files in CI/CD pipelines.

### MEDTRONIC | ASSOCIATE IT SUPPORT DEVELOPER

Feb 2019 – July 2020 | Bengaluru, India

- Improved the response time by 20% by updating components to pure components and imported required components from library / utilities.
- Developed and managed the frontend e-commerce platform using React.js.
- Worked on three web applications targeting customers, selling vendors, and admin users and created global components as per the requirement.

### CGI | ASSOCIATE SYSTEM ENGINEER

July 2016 – Feb 2019 | Bengaluru, India

- Performed unit testing of web applications and troubleshoot issues.
- Developed user-friendly components with validation and error handling.

## SUMMARY

Self-driven, quick starter, and passionate UI Developer with 6+ years of experience in web development.

## KEY ACHIEVEMENTS

- **Optimized initial web page loading by 70%** using advanced techniques in React.js, resulting in a significantly faster user experience.
- **Implemented comprehensive Jest test cases** covering 70% of the current application, including Redux integration, ensuring application stability and maintainability.
- **Successfully integrated SonarQube** into two projects, effectively and removing duplication 30% -40%.
- I focused on security by **preventing click jacking** and updating **tokens both before and after authentication**.

## SKILLS

### PROGRAMMING
